Jay Panchal

Software Developer

Contact:-9313944698
Location: - Kalol, Gujarat
Email:-jaypanchal06334@gmail.com

Profile

Proactive and detail-oriented Software Developer with a strong foundation in Core Java, SQL, Git/GitHub, and modern frontend technologies. Skilled in building responsive and high-performance applications using React.js, JavaScript, and Tailwind CSS. Adept at translating Figma designs into clean, maintainable code, with expertise in state management (Redux/Context API), and cross-browser compatibility. Committed to delivering scalable, user-focused digital solutions.

Experience

Frontend Developer

Feb 2025 - May 2025

The Entrepreneurship Network | Remote

Led a team of interns in building scalable and responsive web applications using React.js and Tailwind CSS. Collaborated on project planning, task management, and feature development, while maintaining code quality through reviews and mentoring. Followed agile practices and used tools like Git and GitHub for version control and collaboration. Key contributions include the development of Fit Verse, a gamified fitness platform with block chain-based rewards; an HRMS system for managing employee data, leave, and attendance; and Task Pilot, a task management tool with role-based access and real-time tracking features

Projects

Inventory Management System

Dec 2024 - Jan 2025

Developed a full-stack web application using React.js and Tailwind CSS, with Appwrite for backend services including authentication and database management. Designed a role-based interface with an Admin Panel to manage items, stock, users, and orders, and a User Panel for browsing items, adding to cart, and placing orders. Integrated React Router for smooth navigation and Redux Toolkit for efficient state management. Enabled real-time visibility of orders to admins for streamlined processing. Focused on delivering a user-friendly UI with secure and scalable role-based functionality.
